WHAT IS

OVS (Ordinance Violation System)

The **Ordinance Violation System (OVS)** is an automated violation ticketing system for local government units.

Integrated with an administrative portal and a payment gateway interface, it allows ordinance violators to conveniently settle their tickets, anytime and anywhere using their mobile devices.

OVER THE COUNTER

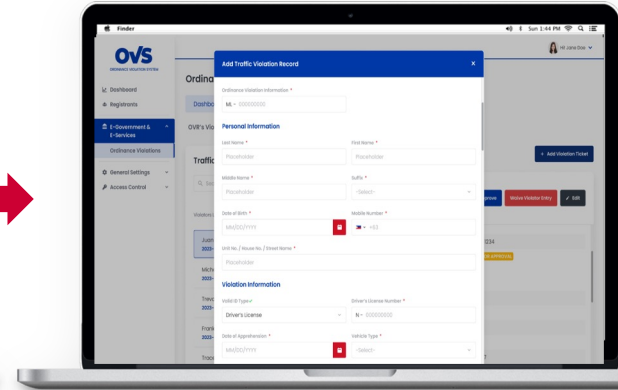

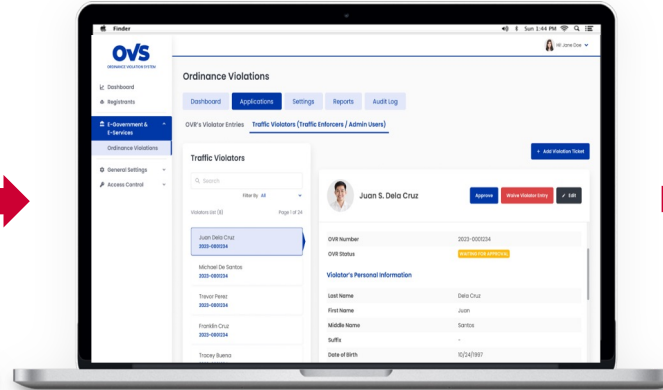

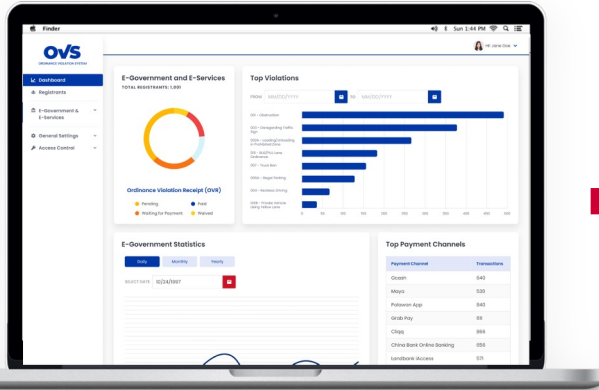

Process Flow

ORDINANCE VIOLATION SYSTEM

LGU Business Operation Process

The dashboard gives a quick visual summary of all ordinance violations and trends.

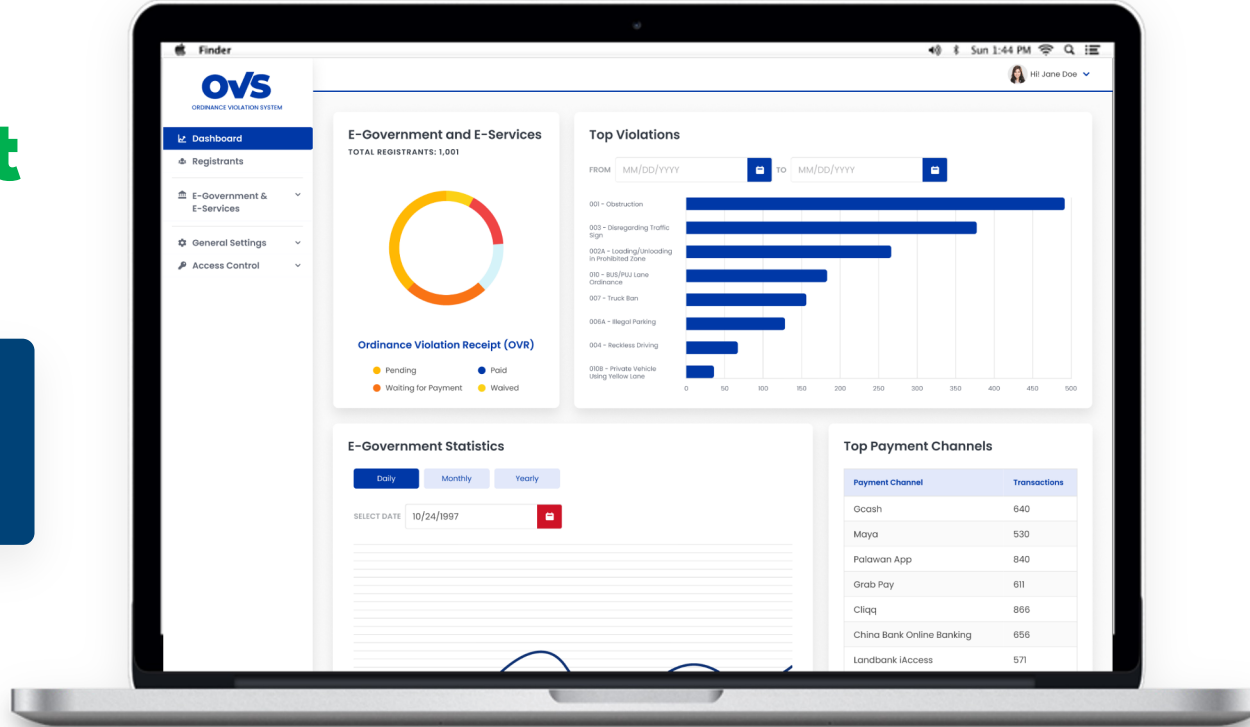

OVS provides an organized list of all violators, complete with search and filter tools for effortless case management.

Simplifies adding new violators, featuring an easy-to-use form for quick and accurate data entry.

ORDINANCE VIOLATION SYSTEM

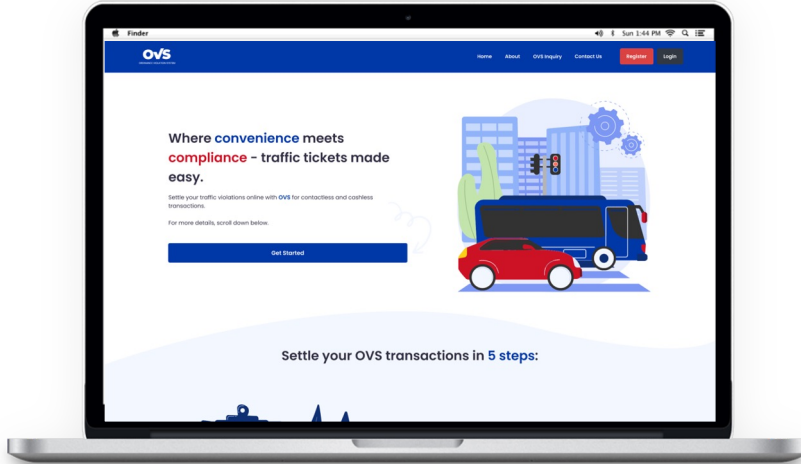

Violation Management Dashboard

The dashboard offers a clear, visual snapshot of all ordinance violations, showcasing real time key stats and trends at a glance

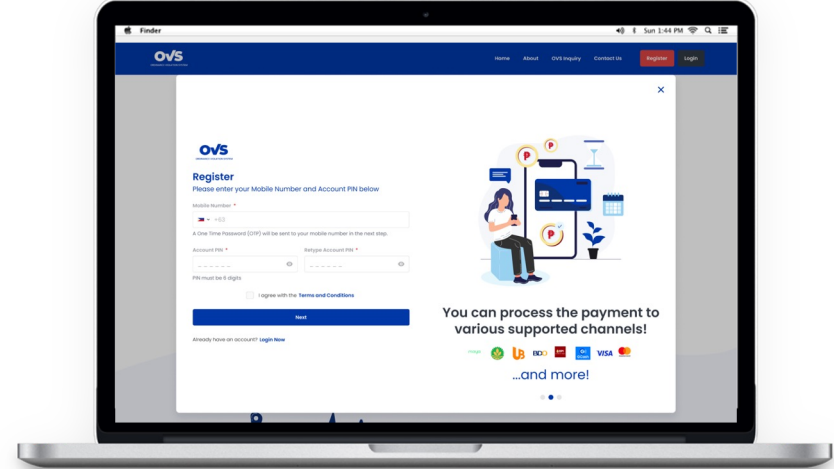

ORDINANCE VIOLATION SYSTEM

Citizen's Portal

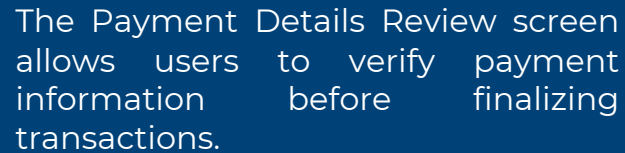

Offers a user-friendly platform for managing violation tickets effortlessly.

The sign-up page simplifies user registration with a straightforward form for quick access to OVS services.

Ease of Payment

Access to diverse payment options for quick and easy ordinance violation settlements.

ORDINANCE VIOLATION SYSTEM

Marketing Pitch

For the LGUs

A model & modern governance with technology

OVS' real-time tracking feature provides accurate and up-to-date information on ticket status and payments. This means that your LGU will potentially raise more operating income as fine collection is now facilitated in a more timely manner and easier than ever. The secure system also ensures safe transactions, adhering to the highest standards in information security.

For the citizens

Convenience

OVS will equip your LGU to provide an end-to-end, fast, online settlement portal, eliminating long queues and travel hours to ensure a quick and efficient experience. The user-friendly interface is light and easy to navigate, accessible to practically everyone, even for the less tech-savvy. It features diverse payment options so ordinance violators can just as easily pick their preferred method.

For law and order

A safe society starts with good governance.

Show your LGU's commitment to law and order by investing in technology that supports citizen compliance. Simplified compliance paves the way for a more orderly and safe society where accountability is promoted and made easier.

THANK YOU
